

IBEW LOCAL 325 APRIL 2021

Greetings Brothers and Sisters,

I hope this newsletter finds you and your families healthy and happy. The sun is shining outside my office window, that always does wonders for my mood and makes me happy and hopefully it does the same for all of you. We are officially in spring and have had solar projects going on for most of the winter with brothers and sisters on these projects.

We are in line to have Bluestone wind farm, in Sanford/Windsor, employing IBEW members later this year. This will be the first wind power site in IBEW Local 325 territory and should be a great opportunity for our members to get a chance to work on it and gain experience with wind power. The state is moving forward with renewable energy and we need to embrace this type of work.

Glidepath is proposing battery storage in the Town of Union; proposed size of around a 100 Mega Watt site. There are still hurdles to overcome for this project to happen; it may be a few years down the road. I have been super busy with Zoom meetings and attending International Conventions and training via Zoom. I have been building a lot of relationships through the process, and there are a lot of good Brothers & Sisters out there that I have had the opportunity to meet.

Be safe everyone,

Fraternally Yours,

Kelvin Herrala

Please call the Hall to sign up for these events as soon as possible if you are interested in attending, payment will need to be sent in prior to the event, but you can call in to reserve your spot and send your payment in at a later date.
