

IBEW LOCAL 325

FEBRUARY 2022

Greetings Brothers and Sisters ,

2022 has started off with cold weather arriving in a big way with sub zero temperatures. The weather has slowed down some projects as well as the supply issues. At the time of writing this 1/31/2022 we have 16 members on book 1 with some of them working in Local 43 Syracuse. There are a lot of jobs on the horizon such as the Frasier substation that a local contractor will be doing a lot of interesting work in the switchyard. The FedEx terminal right next to the hall is one of the larger projects in the area. In the old IBM/Huron Campus there is a battery manufacturing area being renovated as well as a solar panel manufacturing facility due to start construction in 2022. There are electric vehicle charging stations popping up here and there, the hall is having an EV certification class starting February 10th and runs for four weeks. Call the hall or text me to get signed up (asap), there should be a lot of this work coming in the future. We have been doing a lot of solar work with some of it in our sister locals and we have members that enjoy this type of work.

As we move forward through COVID we are planning on having social functions again in 2022 with local 81 bowling tournament happening on February 26th and we will be sending two teams. The entertainment committee is hard at work with the Saint Patrick's day parade scheduled for March 5th, Hot Dogs & Hamburgers provided before the parade. Right after that they will be planning the union golf tournament which is always well attended. We are booked for a family picnic at the ball stadium on Friday June 24th, food & beverages are provided in the picnic area and you also get seats in the stand . Let's all be safe out there and look after each other .

Fraternally ,

Kelvin
