

IBEW LOCAL 325 AUGUST 2022

REGULAR MEETING: AUGUST 15TH@ 5PM

Greetings Sisters and Brothers,

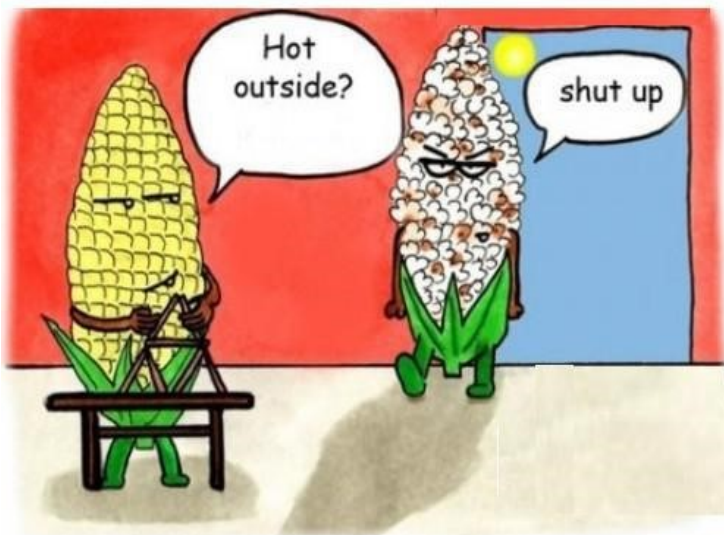

The dog days of summer are upon us so remember to stay hydrated and know the warning signs of heat stroke and exhaustion. There is talk of a lot of infrastructure work to come and electric vehicle charging stations to be put in. Anyone interested in Electric Vehicle Infrastructure Program can find out more at evitp.org. EVITP is a 20-hour course for journey-level wiremen, available at JATC training centers and online. You can enroll in the program online at <https://evitp.org/training/> for a 20 hour course. You can call Kelvin at the union hall if you are interested in getting your credentials.

We also have had members working in substations doing upgrades to allow for the wind and solar power to be tied into the grid. We need more Journey-level workers so if you know non-union electricians let them know there are opportunities in the IBEW and they can be craft tested in. We have a project in Walton that could use more help so we could craft test a JW and upon proving journey level skills will be able to be sworn into membership and go out to work as an IBEW member.

We finished up another good season of softball and will be sending a team down for the Long Island Tournament. I also want to thank the membership for putting their trust in me and re-electing me as Business Manager. I also want to congratulate all of the officers that were elected and thank those who served over the last three years.

Fraternally,

Kelvin

INSURANCE OPEN ENROLLMENT
