

IBEW LOCAL 325

AUGUST 2023

Greetings Brothers and Sisters,

I hope everyone is Healthy and is having a good summer. Looking after ourselves is not always the priority because we live in a busy world with sometimes highly stressful situations that can take its toll on our bodies over time. So hopefully members have a primary physician that they can have a routine physical and keep track of anything that may be going on. There is also telemedicine that has made access possible from our homes. We have Teladoc service through our health insurance that is an easy phone call and you get to speak with a doctor from wherever you are and get a diagnosis or recommendation as well as a prescription if needed sent to your pharmacy. Also there are options for online counseling services should anyone who may be feeling overwhelmed and want outside support to help make it through with whatever is going on. There are also walk in clinics for those that do not have a primary care physician but are in need of seeing a health professional, these are a much cheaper and usually faster option than the Emergency room. Knowing their locations and hours ahead of time before we are hurt or sick as well as hours of operation could save time and money over making an ER visit. Here is to your Health and Happiness!

And remember to look after each other.

Fraternally,

Kelvin
